# ABOUT US

Churchill Container designs and produces rigid plastic cups and containers for clients who value branded package design as a marketing tool. Since 1980, we've been helping promote brands and increase revenue with programs designed to drive repeat business. Our killer in-house art department is the best in the business and our single Midwest production facility enables us to provide consistent quality control and efficient tracking of orders. We offer an incredible array of options to raise the perceived value of any food or beverage product.

## SAFETY

Our highest priority is the safety of our employees, visitors and products.

## QUALITY

Our meticulous quality team ensures that no products leave our building that aren't up to standard.

## SERVICE

Our customer service department is readily available to answer any questions or concerns you may have.

## DESIGN

Our talented in-house graphics team creates designs that are unique and memorable.

ABOUT US

Churchill Container is a Safe Quality Food Level 2 certified facility. Level 2 is a certified Hazard Analysis Critical Control Point food safety plan that is benchmarked by the Global Food Safety Initiative (GFSI).

## FLUTED CUPS

With lower minimums and more stock color options, the offset printed fluted cup is a crowd favorite.

### RECYCLABLE

PP is one of the most recycled materials.

### INEXPENSIVE

Offset printing is the most cost-effective decoration method.

### REUSABLE

Dishwasher safe and souvenir quality for multiple uses.

### MADE IN USA

Manufactured in our Lenexa, Kansas facility.

### CUSTOM COLORS

Match to the perfect PMS color with a custom colored cup.

### RIM PRINT

More print space with ability to print on fluted cup rim.

## DISPOSABLE CUPS

Exceptional clarity and high structural strength makes PET the material of choice for a “premium” looking disposable cup.

### RECYCLABLE

PET is one of the most recycled materials.

### INEXPENSIVE

A great looking alternative to a souvenir cup at a lower cost.

### UP TO 6 COLORS

Stand out with vivid colors and complex designs.

### LEAD TIMES

Quick turnaround for time sensitive events.

### GLASS-LIKE CLARITY

PET is glossy and clear, just like a glass product.

### FREIGHT

Save with lighter weight cups and more efficient case packs.

## IN-MOLD LABELED CUPS

In-mold labeling takes the traditional reusable cup to a whole new level with durable, full-cover, photo-quality decoration. IML allows for unique features such as inside print, ultra-clear resin, metallic foil, and custom colors to set products apart.

IML CUPS

### INSIDE PRINT

Clear cups with inside print for double the branding space or surprise messages.

### IML AGREEMENT

Lower pricing, faster lead times, consistent deliveries (page 31).

### REUSABLE & RECYCLABLE

Dishwasher safe and souvenir quality for multiple use until recycled.

### MADE IN USA

Manufactured in our Lenexa, Kansas facility.

### STUNNING GRAPHICS

Decoration from top to bottom in the highest quality.

### VARIABLE DATA

Unique text and codes on every container.

# WHY REUSABLE?

With an ever increasing variety of “green” cup & container options available, reusable is still best for the earth & your bottom line.

## REUSABLE

- Long-lasting brand awareness
- Generates more impressions
- Refill & loyalty programs
- Recyclable
- Higher perceived value
- Affordable

## 50% POST-CONSUMER RESIN

- Same great qualities as reusable
- Available in black
- Available for majority of IML products

# VS.

## BIODEGRADABLE

- Breaks down into small pieces creating land and water pollution
- Releases methane, a potent greenhouse gas, when in landfill
- Can't be recycled

## COMPOSTABLE

- Doesn't break down in home-scale compost bins
- Produces poor quality of compost
- Can't be recycled

WHY REUSABLE?

# IML AGREEMENTS: LOWER COST, FASTER SERVICE

## HOW DOES IN-MOLD LABELING WORK?

1. Gorgeous high-resolution artwork is printed directly onto a durable polypropylene label.
2. High temperature polypropylene is molded to the label to form a completely bonded, fully reusable and recyclable, single piece with long-lasting top to bottom decoration.
3. With a label agreement, Churchill can stock the labels and simply mold and ship timed releases as needed, **dramatically improving pricing and lead times without an expensive finished goods commitment**

### AGREEMENT

- Commit to a total order quantity (typically annual usage)
- Confirm all artwork
- Submit blanket PO for total quantity commitment
- Larger volume locks in low prices without committing to costly finished goods

### FORECAST

- Indicate quantity for the initial shipment
- Estimate shipping schedule for the total quantity commitment\*

\* When the end of the total forecast period is reached all inventory must be shipped within 3 months or it will be invoiced and recycled.

### PAY AS YOU GO

- Receive invoices for the quantities shipped
- Only pay when you pull
- Early cancellations only pay for the unused labels rather than finished good\*\*

\*\* Unused labels are billed at 1/2 the quoted price of the finished product, any other remaining components will be billed at their full price.

# REFILL PROGRAMS

Maximize efficiency with refill programs guaranteed to move lines faster, improve customer experience, and lower labor costs.

## SELF SERVE

### 1. SET-UP

Install refill ready machine OR retrofit existing fountain provided by our partner

### 2. CUSTOM CUP

Create custom cup design with unique code

### 3. AUTHENTICATION

Pouring is locked until guest scans unique code on cup

### 4. CONTROL & DATA

Flexible, rules based dispensing with live reporting using software system from our partner company

## REFILL STICKERS

### 1. CHOOSE REFILL

Let us know you want a refill sticker added

### 2. REMOVE STICKER

Remove refill stickers to show use

# AUGMENTED REALITY

Viewed through a smart phone camera, augmented reality adds an interactive layer of digital content to the cup or container. **See AR yourself! Download the Zappar app & scan the cup below.**
